Winter, 1944-45

Dear Garden-Loving Friend:

It is indeed a pleasure to mail you a copy of our catalogue in response to your kind request. It was published for Spring and Fall 1944 and Winter 1945, with prices as of December, 1943. We all know the changes in supplies and prices that have taken place meanwhile in every business so that in the forthcoming catalogue, now being printed, it is necessary to make some revisions; we will be obliged to raise prices on quite a few items, and discontinue some, to partially offset our mounting costs of doing business. However, during December, January and February we are accepting and booking orders, with remittance, made up from this catalogue after you have noted the information on these pages.

It may hardly be necessary to tell you of the importance of placing your order well in advance of the shipping and planting season. Should correspondence about your order be necessary, there will be time during the winter to advise on shortages or matters of culture. We therefore look forward with pleasure to doing business with you during the Winter and promise that your thoughtfulness in ordering early will be reciprocated with good plants and good service that will not only be a credit to us but bring you a lot of garden enjoyment in the years to come.

CHANGES, DELETIONS and REFERENCES to our 1944 General Catalogue, "Garden Gems."

FRUITS: (pages 47 and 48) Strawberries - Sold out until Fall, 1945. Fruit Trees and bushes - Because it is not practical or economical to ship our larger fruit trees and since most of our medium sizes are temporarily sold out until the new crop matures, we can accept very few mail orders for them except for local truck deliveries when practical.

ROSES: While Bobbink & Atkins have always been one of America's foremost Rose-Growers, the fact is that for Spring, 1945, many shortages are now developing. As this is written in December 1944, we have a fairly good supply of very good plants but there is no way of telling in advance just how long the supply of certain varieties will last. It is now our custom to reserve in advance all orders received during the winter but even so it may not be possible to supply the exact varieties your order calls for. We therefore request your permission allowing us to substitute intelligently with varieties in the same class,

similar color, and of equal or greater value where certain varieties become sold out as the season advances. We believe this same situation exists with all nurseries specializing in roses and is due to the fact that experienced labor such as rose production requires has not been available during the war period.

Duquesa de Peneranda	Suntan	Charmaine
Mrs. Sam McGredy	Shades of Autumn	Cecil Brunner
Mrs. Edward Laxton	King Boreas	Dagmar Spath
Pinocchio	Rose Elfe	Dream Girl-Climber

The general rose discount as noted in our Fall 1944 supplement is now 10% for an order that totals 25 or more rose plants. The 15% discount no longer holds.
